and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

We use our phone only for emergencies and so that our five kids can get a hold of us day or night for whatever their needs. In this day and age where communication with our children is so vital, the kids feel free to call us whether they are in trouble or could be in a emergency situation. Why charge extra? We won't have a phone and our kids could end up like some of the kids you see on milk cartons or in the newspapers.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Debra L. Deiser
